Robert H. Dietz Gets Medal of Honor as Posthumous Award

ROBERT H. DIETZ

Staff Sergeant, 24, Was Killed in Germany in March; Also Had Bronze Star

A posthumous award of the Congressional Medal of Honor, this country's highest honor, has been made to Staff Sergeant Robert H. Dietz, 24, son of Herman O. Dietz, of 37 Abbey street, who was killed in action at Kirchheim, Germany, on March 29, 1945, according to a letter received by the father from Major Edward F. Witsell.

So far as known this is the first medal of its kind to be awarded to a World War 2 to any Kingston soldier.

Presentation of the Medal of Honor will be made to Mr. Dietz at ceremonies to be held at Governors Island on Thursday morning, December 27, at 11 o'clock.

Jap Election Bill Will Give People Voice in Nation

MacArthur Directs Japs to Begin Relief Plan for Food, Clothing, Housing

Tokyo, Dec. 13 (AP)—Election reform legislation revolutionary in Japanese history is expected to be passed by the House of Peers tomorrow as a first step toward proportionate representation.

While the Diet wrestled with political reform, General MacArthur attacked on the economic front, directing the Japanese government to inaugurate a broad relief program to provide food, clothing, housing, medical care, financial aid and welfare services for unemployed this winter.

The relief plan, when ready, must be submitted in detail for Allied approval. The government was ordered to take all necessary steps to prevent discrimination in distribution of food. Allied headquarters meanwhile began surveys of food consumption, nutrition and physical health of Japanese.

The election reform bill would double the electorate, to about 45,000,000 voters, by granting women suffrage and reducing the voting age to 20 years.

Shunichi Suzuki, election expert of the home ministry, explained that the government measure provides for drastic re-districting and a wider choice of candidates for the House of Representatives.

The legislation does not involve revision of the House of Peers, the reform of which was promised earlier by Premier Kijuro Shidehara. A bill altering the present highly restrictive selection of the upper house is to be introduced in the Diet after Japan's first general election of the occupation.

Mr. Dietz received the letter this week. It reads, "I have the honor to inform you that by direction of the President, under the provisions of the Act of Congress, a Medal of Honor has been posthumously awarded by the War Department in the name of Congress to your son, Staff Sgt. Robert H. Dietz, for conspicuous gallantry in action above and beyond the call of duty at Kirchheim, Germany, on March 29, 1945."

"The commanding general, Second Service Command, Governors Island, has been directed to select an officer to represent the President in presenting the decoration to you."

"You will be further advised as to time and place of presentation by the officer, who, I am sure will be pleased to make such arrangements as will be most convenient to you."

"May I extend my deepest sympathy in your bereavement."

The letter is signed by Edward F. Witsell, Major General, Acting The Adjutant General.

Word of the death of Sergeant Dietz in action last March, was received in April by his father, Sergeant Dietz had previously been wounded in September, but after several weeks in an army hospital returned to active combat duty.

Braved Enemy Fire
At that time he braved the rain of enemy fire coming from an island in the Seine river, near Melun, France, as troops were crossing the river. He was one of the first to reach the island and immediately attempted to silence a machine gun pouring fire into our troops and did his utmost to administer first aid to a wounded soldier of his company.

Sergeant Dietz was subsequently wounded September 19, 1944. He was awarded the Purple Heart and was hospitalized for a time in England.

Helped at Gasoline Station
Before enlisting March 22, 1942, he helped his father at the gas station adjoining the Broadway railroad crossing. In the fighting during the summer he traversed many of the places familiar to his father who served in the first World War.

Real Estate Is Opposed To Price Fix

Banking Committee Has Idea Truman Could Deal With Problem Under Powers

Garrett Speaks
National Real Estate President Calls Step Dangerous

By MARVIN L. ARROWSMITH
Washington, Dec. 13 (AP)—Administration-endorsed legislation to fix price ceilings on new and existing houses ran into stiff opposition today.

The most outspoken criticism of the proposed control program approved by President Truman came from real estate circles.

On Capitol Hill, a spot check of the House Banking Committee considering the price-fixing legislation disclosed that a number of members believe Mr. Truman already has sufficient authority to deal with the housing problem.

This sentiment was echoed by the National Association of Home Builders, which said the imminent restoration of building materials to a priorities system made price ceilings unnecessary.

Frank W. Cortwright, executive vice president of the association, said his organization would continue to oppose ceilings "as unrealistic and unworkable, and as a stumbling block to solving the housing problem."

He told a reporter Mr. Truman's program for channeling 50 per cent of all building materials to residential dwellings costing \$10,000 or less would help keep all home prices in line.

"I don't think people will be foolish enough to pay ridiculous prices for homes," Cortwright said. "And that means builders won't be able to charge them."

The National Housing Agency, on the other hand, said in a statement: "When people want shelter, they want it bad. Within limits, many

Patton Has Good Chance, Is Report

Fracture Is Reduced; Can't Tell Damage to Spinal Cord

Heidelberg, Germany, Dec. 13 (AP)—The commanding officer of the U. S. Army hospital where Gen. George S. Patton, Jr., is under treatment for paralysis said tonight there was "a good chance" that the American commander might be on his feet again.

The fracture of the vertebra in Patton's neck was reduced, he said, but it is still impossible to determine how much damage was done to the spinal cord.

Doctors in attendance said the general had spent a good night and that his general condition remained satisfactory, with no complications.

The hospital commandant, Col. Lawrence C. Ball of Harlan, Ky., said there was general confidence among the doctors that the injured commander of the U. S. 15th Army would pull through, although it might take "a few days, a few weeks or several months."

Union Leaders Hopeful for Settlement With Ford; Other Strategy Is Mapped; Labor Takes Solace in Past Senate Acts

Supporters Are Sure They Can Win in Senate Against New Bill.

Ban Is Stricken
Application of Law Would Apply to Unions

Washington, Dec. 13 (AP)—Organized labor took solace today in past senate performance as it pondered its first recent major setback in the house.

Falling to block a drive that won top-sided approval for a bill designed to make unions liable to punishment for violations of the 1934 Anti-Racketeering Act, labor supporters said they were confident they could win in the senate.

Their optimism was summed up by Rep. Marcantonio (Am. Lab.-N.Y.), who told reporters:

"There isn't any question that we can stop it in the senate."

Marcantonio and others who fought the measure through yesterday's house session pointed out that a similar bill passed by the house in the last congress died in senate committee.

"The same thing will happen again," the New Yorker added. Direct outgrowth of a 1942 Supreme court decision setting aside the conviction of a local New York Teamsters' Union on charges of conspiracy to violate the 1934 law, the bill would bring union activities within the scope of that act if they constituted "robbery or extortion."

Conviction would be punishable by as much as 20 years imprisonment and a \$10,000 fine.

It strikes from the 1934 law a ban against its application to labor organizations "lawfully carrying out the legitimate objectives" of unions, and removes a section exempting wages paid by a bona fide employer to a bona fide employee from the definition of "property" or "money."

The house action cleared the docket of labor bills in a position to be acted on before the Christmas recess, unless unexpected developments jar loose from committees the President's proposal for fact-finding boards to handle major labor disputes.

Hearings on the fact-finding measure were continued today by the senate and house labor committees. Secretary of Labor Hugo L. Cass was slated to support it before the house group and A. F. L. President William Green was booked in opposition by the senate committee.

There was slim chance, though, that the President's request for action before Christmas would be granted.

Kingston Escapes 'Flu' Epidemic to Date

No cases of influenza have been reported in Kingston, although a mild epidemic is prevalent in the Ellenville and Kerhonkson areas, was stated at the city's health department today.

Inquiry at the office of the Board of Education this morning revealed that there was no unusual absenteeism reported among the pupils in the city's schools.

These three men were named by President Truman on a fact-finding board to study the General Motors labor dispute: (Left to right) Milton Eisenhower, president of Kansas State College; Lloyd K. Garrison, chairman of the W.L.B.; Judge Walter P. Stacy, who will head the board.

'Flu' Outbreak Takes Jump Among School Students

U. S. Court Hands Out Death for 36
One Gets Life in Prison, Three Are Given Terms of 10 Years

Dachau, Dec. 13 (AP)—A U. S. Military Court today sentenced 36 officials and guards at the notorious Dachau Concentration Camp to death by hanging for the murder, torture and starvation of thousands of the camp's inmates.

Another defendant was sentenced to life imprisonment and three others were sentenced to terms of 10 years each.

The 40 defendants were convicted yesterday by the military tribunal, which debated only 90 minutes before bringing in the verdict. Among those convicted were five camp doctors and three prisoners who had collaborated with the S. S.

Witnesses at the trial said that 5,000 Jews were killed at Dachau, that inmates were brutally beaten, that naked men were immersed in ice water for experiments and that some men were sent to the crematory while still alive.

The camp was the most notorious and most feared of the concentration camps set up by the Nazis for political prisoners.

The men who operated the horror camp received their sentences calmly for the most part, only a few showing any change of expression.

The life sentence went to Peter Betz, a guard, against whom there was little evidence of personal cruelty. Ten-year terms were given Hugo Lautner, who was said by witnesses to have been kind to prisoners; Albin Gretsich, who was drafted into the S. S. and against whom no personal accusations of cruelty were made; and Johann Schoepf, who was drafted from the Romanian Army by the U. S. and assigned to guard the Dachau tower.

Dr. Klaus Karl Schilling, 74, who killed many prisoners in experiments through which he sought a malaria vaccine, and S. S. Officer Martin Weiss, commandant of the camp, were among the 36 sentenced to die.

Schilling, who last week begged the court for time to complete his experimental records, blinked his eyes rapidly and bowed his head when he heard the words: "Death by hanging."

Ellenville Is 50 Per Cent Affected, Kerhonkson 25; Illness Is Mild Type

An influenza epidemic, which has struck hard in many sections of New York state "is on the upswing," the State Health Department warned today, with Ellenville and Kerhonkson seriously affected.

The epidemic compares with one the state experienced in 1941, and appears to be spreading, Dr. Robert Korn, assistant director of the division of communicable diseases, reported.

Thousands of school pupils have been absent throughout the state because of the "flu," and many other persons on whom statistics are not available undoubtedly have been hit by the disease, Dr. Korn added. No deaths have been reported, he told The Associated Press.

"The illness is of a mild type," he explained, "although its extent is of epidemic proportions. The disease is on the upswing. Our present epidemic now compares with the one we had in 1941."

Korn said causes of influenza were not known definitely, but doctors thought the "flu" was caused by a virus, perhaps similar to that believed to cause the "common cold." He doubted that cold weather would effect the disease "one way or the other."

Korn described the "flu" as usually beginning with a high temperature, 102 to 104, headache, slight nausea, vomiting, chills, and persistent coughing. The fever drops in about 24 hours, he said, but the "flu" leaves its sufferer "feeling knocked out."

The nation as a whole is undergoing a similar epidemic, Korn commented. The U. S. Public Health service reported 5,000 cases for the week ending November 24 and a jump to 13,000 the next week.

No detailed figures are available on all New York state he said, although the department "has a good index from the reports by

Human Head, Lamp Shade of Skin Are Shown as Evidence

Head Was Shrunk to Size of Baseball; Skin Came From Camp Buchenwald

Nuernberg, Dec. 13 (AP)—A preserved human head and lamp shades made of human skin were presented as evidence of atrocities in Nazi concentration camps at the war crimes trial of 21 top German war leaders today.

The grisly exhibits were added to the Germans' own records of murder and brutality placed before the four-power international military tribunal by Allied prosecutors charging the once-powerful Nazi warlords with "crimes against humanity."

Relating the already-revealed horrors of the notorious concentration camps at Mathausen and Buchenwald, U. S. Assistant Prosecutor Thomas J. Dodd declared that "we feel no argument is necessary to support our statement that the Nazi conspirators used these concentration camps as places of terror."

The preserved human head, shrunk to the size of a baseball and resembling the war trophy of an aboriginal head hunter, was that of a Pole who had been caught fraternizing with a German girl.

The three pieces of human skin tanned into parchment for lampshades for the wife of SS Standartenfuhrer Koch came from victims at Buchenwald selected because of their "artistic" tattooing, according to an affidavit by a former inmate of the concentration camp.

Streicher Is Unmoved
Jew-baiter Julius Streicher, alone of all the defendants, remained unmoved. The others averted their eyes but from time to time stole glances at the barbaric trophies.

The "death ledgers" of the Mathausen camp recorded the deaths of more than 35,000 inmates from 1939 to 1945. On March 12, 1945, the department "has a good index from the reports by

Union Officials Are Hopeful Pact With One Will Decide Others

Will Cooperate
Union Agrees to Get Facts Ready by Dec. 19 for Board

Detroit, Dec. 13 (AP)—While some union leaders resumed limited negotiations with General Motors Corp., others more hopefully went back into huddle today to map further strategy for speeding up settlement of their wage fight with the Ford Motor Co.

Negotiators for both Ford and the C.I.O. United Automobile Workers appeared still conciliatory despite a company blast at overall union policy and a union reply that the attack was "provocative."

Richard T. Leonard, U. A. W.-C.I.O. Ford director, admitted he was "not very happy" over the outcome of yesterday's wage parleys, but said he would press the union's demand for a 50 per cent wage increase at the next session with the company Friday.

Union officials have expressed the belief a settlement with any of the "Big Three" auto producers would set a pattern which would help solve disputes with the others.

The G.M.-U.A.W. session today (2 p. m. EST) was to be confined largely to a discussion of General Motors' charge of "illegal picketing" at some of the 70-odd strike-bound plants, where 213,000 workers have been idle since November 21.

President Truman's appointment of a fact-finding board in the G.M. dispute, however, was expected to hasten the efforts of both parties to reach an agreement over the bargaining table.

The union bitterly opposed government intervention in the strike when Mr. Truman set forth his plan December 3, but U. A. W. President R. J. Thomas and Vice President Walter P. Reuther promptly agreed to "get all the facts" before the board in time for its first meeting in Washington next Wednesday.

General Motors Lukewarm
General Motors was lukewarm to the President's proposal, which would empower the board to delve into its books, and withhold comment when the panel headed by Chief Justice Walter P. Stacey of the North Carolina Supreme court was named yesterday.

After its latest conference with the union the Ford Company issued a statement detailing the wage question, but have not since reconversion to car production began.

"We can't understand," the statement said, "why the whole U. A. W.-C.I.O. strategy has been to come forward now when things are critical and when we really are not in production, and demand more wages."

"We would like to offer you a wage increase and, in these months past, we thought by now we would be able to come here with a more reliable attitude on the wage question. But circumstances, many over which we have no control, have changed this picture."

"We don't feel that it is reasonable for you to press your demands now just because such a move subscribes to overall union policy."

John S. Bugas, Ford director of Industrial Relations, estimated that even with a 16 per cent increase in individual productivity in 1946 and with no wage increases the company would lose about \$27 on every passenger car and truck or a total of about \$35,000,000 under present G.P.A. prices.

U. S. Invites 14 Key Nations To Discussion of Tariff Walls

Washington, Dec. 13 (AP)—The United States has invited 14 of the world's key trading nations to a "roundtable" discussion designed to cut down tariff barriers and begin the task of expanding world trade.

Disclosing this today, officials who asked not to be named said the conversations will precede a full-scale United Nations trade and employment conference scheduled for next summer.

Countries reportedly invited to the preliminary meeting are Britain, Russia, France, China, Canada, Brazil, Australia, Cuba, New Zealand, Belgium, Holland, Czechoslovakia, South Africa and India.

No date has been set yet, but the officials said it probably would be held in the spring and might

Chicken Flocks Increased

Harrisburg, Pa., Dec. 13 (AP)—Rising feed costs have failed to deter Pennsylvania farmers from increasing their flock with the result that they produced 158,000,000 eggs last month—\$100,000,000 more than during October, the Department of Agriculture reported today.

The year's rise in feed costs amounted to 7 per cent but the price farmers received for live chickens went up only four-tenths of one per cent, the department said.

Transport Workers Vote Arbitration Of Their Dispute

New York, Dec. 13 (AP)—In secret balloting conducted yesterday, members of Local 100, Transport Workers Union (C.I.O.) voted about five to one in favor of arbitration of their dispute with the Third Avenue Transit Corporation. Douglas L. McMahon, president of the Local, said 1,736 voted for arbitration and 313 favored an immediate strike. Thirteen ballots of the 2,062 total were voided, he said.

"I will contact Arthur Meyer, chairman of the State Mediation Board," McMahon said, "and agree with him on a time—probably Monday—for resumption of arbitration with Professor Paul Hays of Columbia University as mediator."

"This vote bears out the contention of the Local's policy committee that it is better to continue arbitration than to strike."

The union members previously

had voted to strike at midnight last Monday, but later agreed to postpone the strike pending the formal balloting.

The union is seeking a 15-cent-an-hour pay boost. The company offered four cents.

A strike would halt most buses and trolleys in the Bronx and Westchester counties, and many trolleys in Manhattan. The line serves an estimated 1,250,000 passengers daily.

TB Association Busy With X-ray, Seals Program

The Christmas Seals office at 74 John street has been more than a busy place for the past week. In addition to the tuberculosis seal sale work, notices are being mailed out with reports to over 3,000 persons who took advantage of the last chest X-ray survey, sponsored by the Ulster County Tuberculosis and Health Association.

This program was carried on in Saugerties, Kingston and Wallkill and at Hercules Powder Co.

Tuesday of this week, teachers and high school seniors in Highland, Marlborough and Milton will be X-rayed, while teachers and freshmen of New Paltz State Teachers College as well as teachers and high school seniors of New Paltz High School will be X-rayed on Wednesday.

As soon as it is possible to reserve the X-ray survey unit the next program will be carried on in Kingston. Included in this survey will be employees of the various city departments. A few more factories in Kingston are also on the list for the survey. Christmas Seals finance the program for the teachers as well as in the county schools and in some of the factories.

Any person interested in having a chest X-ray during the next survey should contact the Ulster County Tuberculosis and Health Association at 74 John street in Kingston and arrangements will be made to include them in the survey. No charge will be made for the X-ray. Christmas Seals will finance the program.

The Chinese know the Christmas festival as Cheng Dan Jieh—the Holy Birth Festival. Their Christmas tree is called "Tree of Light."

Flashes of Life Sketched in Brief

Inpatient Patient
Kansas City, Dec. 13 (AP)—Robert Brown, a World War II veteran suffering from malaria, grew impatient when an ambulance which had been called to take him to a hospital failed to arrive.
He got out of bed at his home, dressed, went in search of the

vehicle, and found it stalled with a dead battery.
Brown helped to push the ambulance to a start, then climbed in it and rode on to General Hospital.

Trapped
Ketchikan, Alaska, Dec. 13 (AP)—Rancher Bert Atkinson glanced up from a trap he was setting and found himself staring into the angry eyes of a crouching wolf.
"I raised my axe and struck him on the head," said Atkinson, displaying the skin in Ketchikan. "The first blow knocked him out."

but I hit him three or four times to make sure."

Early Shopper
Tulsa, Okla., Dec. 13 (AP)—City Finance Commissioner John Hall has his Christmas shopping problem thoroughly licked.
Nearly all his friends have dogs, so he just sends them 1946 dog tags along with certificates that the tax has been paid.

Confusion
San Francisco, Dec. 13 (AP)—San Francisco's street cars encountered a new hazard when a dump truck hit a rut at a busy intersection.
The jolt released the automatic dumping device and the cars were held up 45 minutes while workmen cleared the truck load of dirt from the track.

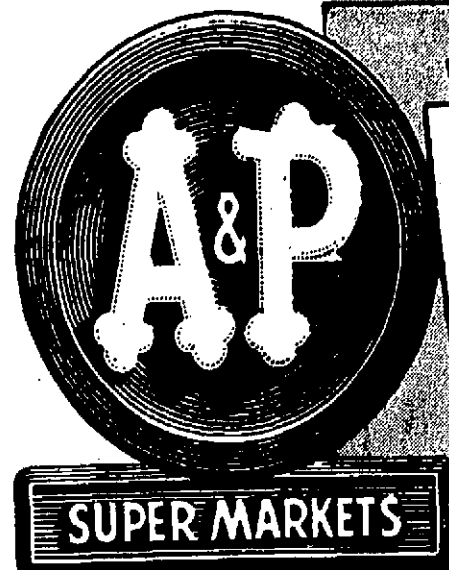

Anything Can Happen
Fresno, Calif., Dec. 13 (AP)—A double birdie on a single green is possible in golf, as C. S. Swanson, Fresno, will attest.

Swanson slammed his third fairway shot at the No. 1 green. A blackbird came fluttering through the air. The ball hit the bird smack in the head and it dropped dead. The ball dropped four feet from the hole. Swanson sunk the putt for a birdie four.

Reconversion
Seoul, Korea, Dec. 13 (AP)—Fifteen one-time shiny Japanese army horse-drawn gun carriages look on a new atmosphere today.
In suitable cities attended by American military government and Korean officials, they were re-commissioned as garbage wagons.

**Louis B. Mayer Tops

SHORTAGES GET

Keep saving used fats to help prevent further cuts in your soap supply

As long as our country's supply of industrial fats is so low, the government must determine how much fat can be released to make soap and other peacetime goods.

Any let-down in your saving of used kitchen fats will make our fat supply even less...and the amount allowed for soap manufacture may have to be cut accordingly. The end of rationing of food fats doesn't change the picture. Industrial fats are still very short. So keep turning in your used fats, won't you?...and speed the return of more soaps to your children's shelves.

U. S. Troopship Reports
Trouble Off Nantucket

New York, Dec. 13 (AP)—The troopship Joseph Hooker, with 562 servicemen aboard, pitched in the Atlantic off Nantucket light vessel today as nearby vessels sped to answer her distress call.

The air sea rescue office, eastern frontier, said the ship was 270 miles east southeast of the Nantucket light vessel last night. First distress signal from the Hooker said:

"Taking water in number three hold. Request vessels stand by in case cannot keep pumps going."

Later, however, the rescue office said the ship had radioed it was proceeding at six knots on a westerly course, but might not be able to keep on course because of the pitching.

The message asked that three ships in the area, the navy transport Loge and the freighters William Patterson and Examiner, stand by, but said "all other ships need not come to us."

Community Councils' Responsibility Cited

Syracuse, N. Y., Dec. 13 (AP)—"Community planning councils have a major responsibility in the development of public health, welfare, recreation and education programs," Violet M. Sieder, staff member of Community Chests and Councils, Inc., New York, said today.

Miss Sieder told delegates attending the New York State Conference on Social Welfare in a prepared address that governing groups and welfare planning councils work hand in hand.

The speaker recommended membership in community councils of all governmental bodies operating local services in the broad field of welfare.

A discussion on child care was led by T. Merrell Shipperd, executive secretary, Children's Bureau, Syracuse, and included talks by Fred Schumacher, Dobb's Ferry, and Jean Maxwell and Mary Keely, New York city.

November Milk Will Bring Dairies \$4.31

New York, Dec. 13 (AP)—November milk will bring \$4.31 a hundredweight, the highest price ever returned from the New York Metropolitan Milk Pool to dairy farmers in the six-state milkshed, Dr. C. J. Blanford has announced.

The price posted for November milk was \$3.61 a hundredweight, plus payments from the U. S. Department of Agriculture.

Blanford said the output of 328,536,722 pounds of November milk was the lowest ever delivered to New York approved plants in the history of the milk pool.

A decrease in the number of producers as well as the seasonal milk scarcity accounted for the reduced output, he said.

Vanderbilt Is Wed
Quietly in Philadelphia

Philadelphia, Dec. 13 (AP)—Alfred Gwynne Vanderbilt, 33, multimillionaire New Yorker, prominent horse racing devotee and a recently discharged Navy lieutenant, eloped to Philadelphia yesterday with 22-year-old Jeanne Lourdes Murray, Judge Charles Klein—the best man—disclosed.

The bride, cousin of Mrs. Henry Ford II, is the daughter of Mrs. John F. Murray, (755 Park Avenue), New York city.

Judge Klein said arrangements for the marriage were carried out in strict secrecy. The ceremony was held in the Jurist's City Hall chambers by Magistrate Nathan A. Belfel less than an hour after the couple flew in from New York in the Vanderbilt plane and obtained the marriage license.

"Mr. Vanderbilt got in touch with me last week about it," Belfel said, "and asked that everything be kept quiet. I arranged for the report of the blood-test to be filed and the application for a license to be entered."

"I had a car at the airport waiting for them when they arrived, and I took them back after the ceremony," he asserted, adding that Pennsylvania's three-day waiting period for issuance of a license was waived by William B. Heap, head of the Marriage Li-

cense Bureau at City Hall.

Vanderbilt, before he went into service to see action on a P.T. boat in the Pacific, was head of the Pimlico (Md.) and Belmont (N. Y.) race tracks. He is reported to have inherited more than \$20,000,000.

Only Magistrate Belfel, Judge Klein, Col. Sol. Rosenblatt, Vanderbilt's attorney, and a lady friend of Miss Murray witnessed the ceremony. The newlyweds returned immediately to New York by plane.

It was Vanderbilt's second marriage, his bride's first. He divorced the former Manuela Hudson in 1941.

Old Lady—They won't be looking at me. I buried your Uncle Henry without his pants.
Even if she isn't engaged a girl likes to have folks think she is.
Auctioneer—What am I offered for this beautiful bust of Robert Burns?
Voice (in the crowd)—That ain't Burns, that's Shakespeare.
Auctioneer—Well, folks, the jokes on me. That shows what I know about the Bible.

Meat Supplies Are Expected to Drop About 9 Per Cent

Washington, Dec. 13 (AP)—The Agriculture Department said today that civilian supplies of meats will decline about nine per cent from present levels of consumption during the first quarter of 1946.

These supplies will be sufficient to allow per capita consumption at an average annual rate of 150 pounds. The department said civilians have been consuming meat in recent weeks at a rate of 165 pounds.

The total amount allocated to civilians for the January-March period is 5,003,400,000 pounds, carcass weight, or about the same amount that was allocated for the current quarter. Officials said, however, that civilians have been getting more than their allocated supply because the government has not enforced rigid diversion of supplies to military and foreign claimants.

Arrangements have been made, they added, to hold the civilian supplies in next quarter to the amount allocated.

It is expected that civilians will get more pork than during the present quarter, about the same amount of lamb and mutton, but less beef and veal.

Word Picture Is Painted at Dinner Of Marshal Tito

Overlord of Yugoslavia Described at Gathering in Governor Clinton

By Maj. T. Fielding

Members of the Kingston National Dinner Club should be able to qualify as experts on Yugoslavia—its history, geography, economic and political status—and particularly its present overlord, Marshal Tito, following the comprehensive address by Major Temple Fielding at the monthly gathering in the Governor Clinton Hotel Wednesday night.

The speaker entered the service in 1911 as a second lieutenant in the U. S. Army and saw service in Africa and the Balkans, including six months behind Marshal Tito's lines as a member of the U. S. Intelligence Service. He took pains to say Wednesday night that any statements he made, or views expressed, were strictly his own and not necessarily those of the government or army.

Major Fielding left little doubt that to his mind Marshal Tito is thoroughly in sympathy with Russian aims and ideas and under Russian Communist influence. Born in Croatia in 1892, he spent three years in the Russian super-secret school in Moscow and at 28 years of age was sent to Yugoslavia as a Communist agent. One of his first acts was to organize a strike and as a result he spent five years in jail. He was released in 1928 and assumed the name of Marshal Tito. Originally he had been known as Joseph Broz, but he has had all kinds of names and been the subject of endless specu-

lation and propaganda, the speaker said.

Following 1928 and for 13 years not too much is known about Tito's doings. He is known to have been connected with Russian intelligence, the underground railroad to Spain and other activities.

When the Nazis attacked Russia Tito and his followers became active. He was opposed by Mihailovich, who at first had the backing of Great Britain and therefore the United States, but later through Russian influence both swung to Tito and Mihailovich is now in hiding. Mihailovich was said to have represented the higher class Yugoslavians, while Tito's adherents were the unskilled workers and those of the lower class. They were said to be "anti anything that is against Russia."

Tito's army, it is stated, rose to an enrollment of about 200,000, of which it was estimated 25 percent were women. It does not attract the older men and probably 70 percent of his army are men under 25 years of age.

Reds Take Credit

The speaker said that after aid from the United States began to enter Yugoslavia the Russians took every occasion to give the impression that supplies came from Russia. He mentioned such things as taking the Philadelphia labels from uniforms, painting over the U. S. labels on canned goods and even telling groups that a flight of 300 B-17s and B-24s were Russian planes.

Giving something of the history of Yugoslavia, Major Fielding said that the Turks took over the entire country in 1389, the last one leaving in 1918. It was made up of small kingdoms until 1919, when all were federated under King Alexander. In 1939 the then King Peter fled to Cairo and not long afterward the Germans annexed Yugoslavia. The country embraces about 96,000 square miles, a land of great grandeur, but only about 25 percent being arable land. It has about 1,000 miles of coast, bordering on the Adriatic (the key to the future, said the speaker). Of its six million population about 71 percent are engaged in agriculture. A reminder of the days of Turkish control is seen in the fact that much of so-called "Turkish" tobacco comes from Yugoslavia.

Magnificent Personality

Marshal Tito was described as a handsome man of great personal magnetism and charm, a pocket size Charles Atlas, muscular and of great endurance, worshipped by his followers. He speaks a number of languages, including some French and some Italian. He claims not to understand English but Major Fielding doubts that following an occasion when Tito very evidently understood a joking remark made by an English officer and not intended for Tito's ears.

"Dynamic, scholarly, shrewd, a Messiah to his followers, Tito is Yugoslavia," said the speaker, who added that he had been the object of unlimited propaganda and a terrific build-up. He controls about one-third of Yugoslavia, the rest being split up.

Important Country

Because of its long coast line on the Adriatic and its strategically located position, Yugoslavia was declared to be a country of importance, despite its size. Its future is seen to be of importance to the United States because this country will be unable to escape being drawn into any conflict of importance that may arise, as a result of the conflicting interests of the great nations in the Balkans and the Mediterranean.

In the absence of President Gollnick Wednesday evening, the speaker was introduced by Frederick Ertel, vice-president of the club.

Officers and directors of the Homeseekers Savings and Loan Association, Broadway and East Strand, Samuel Stern, Charles R. O'Connor, Judge John B. Sterley, Harry Halverson and Charles J. Turck left today for the midwinter conference of the New York State League of Savings and Loan Associations to be held at the Waldorf-Astoria today and Friday, where leaders in finance, government, advertising and public relations, building material and supplies will discuss many important problems confronting the savings and loan business throughout the state and nation.

Union Leaders Hopeful Today

Ford official indicated the company "might be willing to talk a lesser amount" than the 20 percent demanded. The union leaders said they would make "serious consideration" to settling down that amount if an annual wage offer was made.

Boy Is Found Burrowed in Hay

Boy Fell Through Ice, Stayed All Night

Donald Scully, eight-years-old whose disappearance from the home of Mrs. Verna Osterhoudt Tuesday afternoon, was reported to the sheriff's office Wednesday morning about 10:30 this morning in a burn on the premises, where he had burrowed into the hay.

The boy was reported to be conscious when found, but unable to talk or move his limbs. The latter had not become frozen, however. He was taken to the Kingston Hospital for treatment and apparently is making a good recovery.

When he became able to talk Donald said that after leaving his home, which was around 3 o'clock Tuesday afternoon, he fell through the ice on a shallow pond nearby. He then made his way to the barn and dug down into the hay, where he had since been. He had had nothing to eat since the noon meal Tuesday.

Sheriff Smith and deputies made a search for the boy until late Wednesday night and resumed the search this morning. They had not searched the barn in which he was found Wednesday night, as they had been informed that a search had been made there without success. This morning information that the boy had been seen in the barn was received and a search there disclosed him lying deep in the hay.

On examination, after Donald had been brought to the hospital, it was found that he had a number of bruises about the body. Donald is a son of Peter Scully, but for some time has been in the care of Mrs. Osterhoudt on the Samsonville road.

Testimony Ends In Will Contest In County Court

Testimony was concluded today in the will contest case before County Judge John M. Cashin, involving the probate of the will of Mrs. Mary Carey, late of Milton. Mrs. Hickey, who lived next to the Carey home in Milton for some three years, was the last witness of the morning session.

Mrs. Hickey testified she had gone to New York with her car to bring Mrs. Carey home to Milton and while crossing the George Washington bridge she noticed Mrs. Carey's face was very flushed. Mrs. Carey complained of not feeling well and while on the bridge Mrs. Carey was seized with convulsions. Mrs. Hickey said that up until that time Mrs. Carey had acted in a rational manner.

When Mrs. Carey was stricken the police were notified and an ambulance was sent from a Teaneck hospital and Mrs. Carey was taken there. Mrs. Hickey said that her observations of Mrs. Carey had led her to believe that there was no irrational acts, and Mrs. Carey appeared to be normal. She told of an incident involving a blanket which had been given her and which Mrs. Carey said later belonged to her and had been taken from her home. Mrs. Hickey said this appeared to be a rational act and she also considered a request of Mrs. Carey regarding a transfer of money from a New York bank to the Milton bank shortly after Mr. Carey died, a rational act.

Mrs. Hickey testified Mrs. Carey had told her after the death of Mr. Carey in April, 1940 that John E. McGowan, a relative, had offered to have Mrs. Carey live with his family. Mrs. Carey told the witness that Mr. McGowan was the only relative who had made such an offer. This was considered a rational act by the witnesses.

Mrs. Carey made a will in 1941 leaving her property to Loretta Broader. The will was drawn by George Rush, who with N. LeVan Haverkamp for proponents and Michael Nardoni appears for contestants.

Rules Governing Decorations in Public Places

Fire Chief Joseph L. Murphy has issued the following notice to owners and operators of places of public assembly regarding the use of inflammable Christmas decorations.

Inflammable Christmas decorations are prohibited in places of public assembly. I request owners or operators of places of public assembly to comply with the law and refrain from using inflammable decorations.

Decorations may be used, provided that the decorations are flameproofed. Before such flameproofed materials are used an affidavit testifying that the decorations have been flameproofed must be filed with the fire department. The materials in decorations can be made partially fire resistive by spraying them with a solution containing the following: nine ounces of borax and four ounces of boric acid to one gallon of water. The fabric to be treated should be well saturated with the solution, drained and hung up to dry. Application is by steeping in

a warm solution, but dipping, brushing and spraying can also be used.

Christmas trees dry quickly when in the home which means that they will catch fire easier and burn faster.

To keep trees green, it is recommended that at the time they are set up, a diagonal piece be cut off the butt, and the trees be kept standing in a pan of water.

Should Not Have Toll
New York, Dec. 13 (AP)—The New York State Automobile Association says the proposed thruway from New York city to Buffalo was approved as a "free route dedicated to the service of all highway users," and should not be a toll road. A toll charge program was outlined by Gov. Thomas E. Dewey. Association President W. J. Gottlieb told the group's board of directors yesterday.

roadbuilding in the state has been neglected for the past 12 years, but the state had continued collecting registration fees and taxes. As a result, he said, the state had accumulated a \$400,000,000 surplus, "half of which would complete the thruway."

Ellery Queen, the detective novelist, has the largest collection of books devoted to detective short stories in the world.

College Women Have Holiday Supper Party

Kingston College Women's Club held its annual holiday supper party at the Nieuw Dorp, Hurley, Tuesday evening with about 40 members attending. Following the supper a special Christmas program was presented with Mrs. Clarence Dumm acting as chairman.

The program was introduced by all joining in the singing of Christmas carols with Mrs. Herbert Bird as accompanist. The theme of the program was "Bells" and Mrs. Ward Brigham gave a reading, "Ring Out the Bells." This was followed by the singing of "The Bells of St. Mary's" by Mrs. Arthur J. Laidlaw. Mrs. Bird also played a piano solo.

An original poem, "Bells I Have Known" was read by Mrs. John Finerty. "Christmas Bells" was played by two Kingston High School Students, Robert Cahill and Bruce Decker. Miss Nancy Halverson gave a dramatic interpretation of "Curfew Shall Not Ring Tonight." The program closed with a talk by Mrs. George Fielder, whose hobby is collecting bells. She had several items from her collection as illustrations and gave the history of each. She has bells from Bermuda, Switzerland, Tokyo, China, Nassau, France, Germany, England and India. She also showed an old Italian bell which had been blessed by the Pope. Some of the bells were designed in unusual shapes and for special uses or novelties.

Mrs. George Dingee, president, conducted a short business meeting. Miss Gladys Weber, graduate of Columbia University, was accepted as an active member. Announcement was made that meetings of both the current events and book study groups will be held the latter part of January.

Tales Told by Agnes Smith
Miss Agnes Scott Smith, 189 Fair street, was hostess to the Atharhacton Club for its pre-holiday meeting Wednesday afternoon. Preceding the meeting the group enjoyed a social hour and the hostess served tea. Mrs. Cornelius Treadwell assisted by pouring.

Mrs. William Kingman conducted a short business meeting. Miss Smith gave a paper on Ulster County Folklore in which she told of the interest in folk tales, heightened particularly last year with the publication of Botkin's "A Treasury of American Folklore."

Miss Smith also spoke of folklore groups being organized and of the founding of the New York State Folklore Society whose publication is "New York Folklore Quarterly." Several of the colleges have included courses in folklore. Two of the best she noted were at Cornell University, where Dr. Harold W. Thompson, president of the State Society is instructor, and the one at State College for Teachers where Louis Jones, editor of the quarterly is teacher.

The remainder of the afternoon was devoted to Miss Smith's telling various yarns and tall stories associated with this section of the state.

Army Defeats Navy 44-41 In Vets' Game Wednesday

**Thrill-Packed Tilt Is
Played Before Small
Turnout; Ramblers
Win Prelim**

In a thrill packed encounter, the Signal Corps quintet of Long Island edged out the New York Fleet Post Office, 44-41, Wednesday night at the municipal auditorium.

With two minutes to play, the score was Army 42, Navy 41, and the turnout of customers, which barely paid expenses, was treated to a real photo finish as Joe Frantangelo tossed in the clinching deuce as Tinner Tom McNelis' clock ticked off the final 30 seconds.

According to the paying patrons, cage fans who stayed away last night missed one of the spiciest contests seen at the auditorium in a long time, featuring Joe Bortak, who gleamed 25 points for the boys in khaki, and the scoring team of Frank Sullivan and Gene Flynn who collaborated for 20 of the Gobs' markers.

Ramblers Win
The preliminary was packed with action too as the Ramblers, paced by Smith with 13 points, ran up 41 against 32 collected by the Poughkeepsie All Stars, led by Bruno with 16. The local champions of the Y.M.C.A. Autumn League had to turn on the heat to win in the second half at the beginning of which they were behind 21-16.

The Signal Corps tossers went out in front early and had a 16-11 edge at the end of the first quarter. At halftime Army still held the advantage 26-23, and remained in front as the third period finished, 39-36.

Close All The Way
The battle was close all the way, as indicated by the score, which changed hands several times although Army always managed to keep out in front at the wind-up of the periods, the last five minutes of play had the fans cheering enthusiastically.

Flashy Finish
As the announcement was made about the closing, five minutes, Navy was behind by one point, 39-38, and the Sailors put on a concentrated drive, trying to make up for a two-point decision taken by Army in a previous game. The Soldiers kept up their power attack, too, and with two minutes left held the lead, 42-41. Then came Frantangelo's 30-second deuce which clinched the laurels for Army 44-41, and the patrons

Chandler Votes For Unlimited Night Contests

Chicago, Dec. 13 (AP)—Albert B. "Happy" Chandler, commissioner of baseball, emerged from presiding over his first joint session with the major leagues yesterday, happily victorious and with no sniping against him.

Commissioner Chandler cast the deciding vote which will allow the clubs to play unlimited night baseball next season, although most of the clubs will continue to limit their night contests to 14. The exceptions will be the two St. Louis clubs—the Cardinals and Browns and the Washington Senators.

In connection with night games, it was decided to abandon two-night doubleheaders, unless such are made necessary to keep up with the schedule. Night encounters also will be frowned upon as Sunday and holiday attractions. Because the two leagues could not agree on the number of after-dark contests, Commissioner Chandler voted for "no restrictions," as advocated by the National League.

Chandler gained veto power over all legislation he considers detrimental to baseball but can be overruled by a three-fourths vote. The minor leagues at their convention in Columbus, O., a week ago had voted to eliminate such a veto power.

Alabama Has Best Football Record Of Last 13 Years

New York, Dec. 13 (AP)—Alabama, Rose Bowl-bound, has compiled the best record of any college football team in the country over the last 13 years from 1933-1945, inclusive.

Over this 13-year span the crimson tide, ranked second to mighty Army in the final Associated Press 1945 poll, has won 89 games, lost 17 and tied seven for a percentage of 84.

Army's sweep of its 18 games during 1944 and 1945 pulled the West Point cadets from far down the list into the No. 12 slot at 72.2.

The won-lost tabulation shows another southeastern conference eleven, Tennessee, in second place at .817 and Duke, champions of the Southern Conference, third at .802.

Beau Jack 5-12 Choice Over Joyce In Friday Bout

New York, Dec. 13 (AP)—Beau Jack of Augusta, Ga., and Willie Joyce of Gary, Ind., will meet in Madison Square Garden over the 10-round route tomorrow night.

Out of competition for the last 36 months, Beau nevertheless is rated a 5 to 12 favorite by the Broadway betting fraternity. The boys figure Beau has too much speed and punching power. On the other hand Gross asserts Joyce's jab and ability to absorb punishment will prove decisive. Jack expects to weigh in tomorrow around 140, Joyce around 137.

Hambletonian Will Be Run August 7th

New York, Dec. 13 (AP)—The grand circuit stewards yesterday announced August 7 as the date for the running of the 1946 Hambletonian. There will be 23 weeks of trotting races next year from coast to coast. The season starts April 15 and ends September 28.

In East-West Game

San Francisco, Dec. 13 (AP)—Orin E. "Babe" Hollingbery, head coach of the western team in the annual East-West charity football game here New Year's Day, has announced two additional players have accepted invitations. They are Rod Giske, Washington State College guard, and Dick Lorenz, Oregon State College end.

Phillies Are Big Buyers of Talent At Major Parley

Chicago, Dec. 13 (AP)—The Philadelphia Phillies do not intend to be the National League doormat any longer.

Striving to rebuild their last place club, the Phillies were the most energetic buyers of talent at the major league sessions, which closed yesterday, acquiring three players. Previously they had drafted the "Mad Russian," Lou Newkirk, an outfielder cast-off of the Chicago Cubs.

The Phils laid out possibly \$60,000 in the purchase of Pitcher Johnny Humphries from the Chicago White Sox, First Baseman Frank McCormick from the Cincinnati Reds and Shortstop Lamar (Skeeter) Newsome from the Boston Red Sox. The price paid for Novikoff, drafted from the Los Angeles club of the Pacific Coast League, was \$7,500 which brought the total cash layout in the rebuilding program to date to around \$67,500.

Dullest Activity

Activity in the player market was the dullest in years with the result that rosters of all 16 clubs in the American and National Leagues will be loaded with surplus talent in the early weeks of the 1946 season.

Reduction of income taxes after the first of the year stopped some of the clubs with actual bargains to offer from making deals. There was little object, it was pointed out, in taking money for stars in 1945 who will be just as saleable, or more so, a few weeks hence when the income tax collectors won't be dipping into the strong box so heavily. This may have accounted for the failure of the St. Louis Cardinals, with a roster of 80 players, from making sales.

Will Be in Panic
Jimmy Dykes, manager of the Chicago White Sox, says the club owners will find themselves in a panic next spring.

"They're all waiting—and they'll all get stuck," Dykes said today. "I tried to trade several players and couldn't. I wanted to deal while I still could get something for them, for next spring when all the clubs find themselves overloaded, the panic will really be on."

Ossie Solem Post**
New York, Dec. 13 (AP)—Schedule-making is the professed business of the eastern college athletic directors attending their ninth annual convention here today but rumors about football coaching changes continue to monopolize the hotel lobby conversations.
Tops on the list is the Syracuse post which Ossie Solem resigned on the eve of the convention. Athletic Director Lew Andreas has been besieged with phone calls during his stay but has reached no decision. Key-hole listeners reported Lynn Waldorf of Northwestern and Clarence Munn, line coach at Michigan, were the top candidates.

The World Today

By DEWITT MACKENZIE
OF World Traveler

Dublin, Dec. 13.—This is a tough article to control because my whole impulse is to start right out with the glorification of two beef steaks which your columnist has just eaten at the first meal in the capital of Eire.

They were steaks such as we've dreamed of but haven't even seen up to now since Uncle Sam really hit stride in food rationing. After all, who starts serious columns with dissertations about beef steaks, no matter how unusual? Well, the answer apparently is that I do—being rather given to following impulse.

The reason in this instance for the rather whimsical approach is that these beef steaks—being particularly impressive after close rationing in America and closer in Britain—are symbolic of a great change for the better which southern Ireland has undergone in recent years.

The Eire which I have known for a generation has been transformed from a land in which there was much poverty and distress to one in which, so I am informed in official quarters, there is no real destitution.

To get the full significance of that you must have seen—as I have in years past—poverty so harsh in some country districts that many families rarely knew anything better than potatoes and

salt for food, and were grateful for even these small blessings. Now, I don't want to give the impression that southern Ireland has suddenly become a land flowing with milk and honey, for it still has a long way to go to reach that state. However, its position has improved so much during the past dozen years, and especially since the beginning of the war, that Dublin today is the Mecca of a host of tourists from Britain, including many Americans living in England who are in search of relief from drab and really menial rations.

Not a few are drawn by the fact that there's plenty of good liquor to be had here, whereas spirits of any sort are almost as rare in London as moulten gold and worth about as much as that precious metal. Of course there is rationing in Ireland, but those juicy steaks with which we started our column are in reality and there are plenty of other good things to go with them.

This change in Eire's economic position really had its genesis back in the early thirties when Eamon De Valera as head of the government began his agricultural reforms. The big things, however, isn't that Dublin can now give its visitors attractive entertainment in the food line, but that these days there no longer is wide spread impoverishment and Eire is looking forward to further improvement in the postwar period.

Warning Health Officer Was on Job

A friend of Town of Wawarsing Welfare Commissioner George Bueltman, referring to the extreme case of destitution and sickness involving a family of eight persons, the story of which was told in Tuesday's Freeman, says that Mr. Bueltman should be given credit for prompt action in the case.

Mr. Bueltman knew nothing of the facts until he learned Sunday that the mother was in the Ellenville hospital and the other members of the family were sick. He took immediate steps to secure hospitalization for the sufferer and arranged for their transportation to the Benedictine Hospital at Kingston. The expense of the relief work is being borne by the town of Wawarsing.

Real Estate Is Opposed to Fix

Continued from Page One

people will pay any price for place to live." Cortwright said home builders have been getting only about 30 per cent of available construction supplies, and that with this increased to 50 per cent under the new program there is good chance that a goal of 500,000 new homes in 1946 can be realized.

Garrett Calls It Dangerous

In Omaha, President Van Holt Garrett of the National Association of Real Estate Boards said imposition of ceilings would be a "very dangerous step." The association, in a statement issued in Washington, commented that ceilings could nullify any benefits resulting from restoration of building material priorities.

On the subject of priorities, the Producers Council, Inc., said earmarking supplies will make little difference in the number of homes built next year "unless the government takes steps to stimulate greater production of materials and equipment," and helps the construction industry with price and manpower problems.

The council, a national organization of building products manufacturers, said in a statement the proposed ceiling program "brings with it a great risk of delaying home building."

Meanwhile, Rep. Patman (D-Tex.), author of the pending legislation on housing ceilings, termed the President's endorsement and priorities program steps "in the night direction."

But Rep. Wolcott of Michigan, ranking Republican member of the Banking Committee, expressed the opinion to a reporter that the Patman bill has no chance of passing in its present form.

The bill provides that the ceiling on an existing home would be the first price at which it sells after enactment of the legislation. On new homes, the ceiling would be based on actual construction costs, the fair market value of the land, and the contractor's 1941 profit margin on a comparable dwelling. Ceilings would be fixed only in areas where they were deemed necessary by a housing director.

Chairman Spence (D-KY) of the Banking Committee said the allocation of building materials to dwellings costing \$10,000 or less seemed to be an effective means of price control.

Authority for priorities stems from the Second War Powers Act. Government attorneys have decided ceilings not be fixed under the act.

Rev. Henry Dunster, of Harvard, chosen in 1940, was the first American college president.

General Says Army Was Given Alert Before Jap Attack

Continued from Page One

Former Chief of Staff Is Angered by Persistent Questioning About Information

Washington, Dec. 13 (AP)—Gen. George C. Marshall, flushing with anger, asserted today the Army commander in Hawaii was given a "definite" alert order before the Japanese attacked December 7, 1941, and that he felt he could expect it would be carried out.

Marshall testified before the Senate-House Committee investigating the attack. Previously, the investigators had learned that Lt. Gen. Walter C. Short, the Hawaiian commander, established only an anti-sabotage alert in response to a warning message November 27 from Washington.

The former Army chief of staff flared up under persistent questioning about information given to overseas commanders in the last few days before the Pearl Harbor attack plunged this nation into war.

"General Short was given definite direction," Marshall said. "He was given an alert order. I still feel that when you give a command to a high officer you expect it to be carried out."

The assertion followed up Marshall's statement yesterday that he, Marshall, was responsible for actions of the general staff and that he had "full responsibility" for any failure in Washington to see that Short went on a full war alert.

His testimony at that time came in response to a question from Representative Keefe (R-Wis.) whether Marshall, as chief of staff, should not have investigated upon receiving Short's reply about the sabotage alert. Marshall observed that it was "opportunity to intervene."

"Opportunity? It was your responsibility was it not?" Keefe asked.

"You can put it that way," Marshall replied, then he added: **Accepts Responsibility**

"An immense number of papers came over my desk. . . . I am not passing the responsibility to the secretary of the action of the general staff throughout. I was responsible for this. . . . A very tragic thing occurred. I am not attempting to evade that at all."

Marshall said today that Short's reaction to the warning message might have been different if the Hawaiian commander had received information intercepted from Tokyo, that the Japanese were displaying great interest in U. S. ship movements around Hawaii.

Pearl Harbor Probe

Runs Into Volumes

Washington, Dec. 13 (AP)—The Congressional investigation of Pearl Harbor coasted toward the 700,000-word mark today.

The morning session brought the transcript of spoken testimony to volume 23. These volumes, each representing one day's sessions, average, roughly around 30,000 words.

In addition there are hundreds of thousands of words in background and exhibit matter.

A reporter who lugs a big stack of documents to each session asked Gen. George C. Marshall about the prospect of getting a couple of prisoners of war assigned to carry them.

"You need a 2 1/2-ton truck," Marshall said. "It's past the jeep stage."

Holiday Meal Prices

Remain the Same

The Albany District Office of Price Administration announced today that ceiling prices for meals, food items and beverages served on Christmas Day or New Year's Eve of 1945 will be the same as those charged on the same day in 1942. Prices for New Year's Day will be the same as those charged on New Year's Day in 1943.

Authority for the announcement, O.P.A. explained, is contained in amendment 9 to restaurant maximum price regulation No. 2.

our district health officers on school absenteeism.

New York's epidemic seemed to begin about December 1, Korns continued. He listed these places and proportions of school pupils recently reported absent:

Ellenville, Ulster County — 50 per cent.
Kerhonkson, Ulster County — 25 per cent.
Binghamton — 2,316 pupils absent out of 13,000.

Schools were closed in several communities. Mr. Morris reported 40 per cent of its pupils absent. Livonia and Genesee reported absences of 23 and 28 per cent, respectively.

Chautauque county — Influenza reported generally throughout the county. Sherman listed 36 per cent of its pupils absent, Falconer 20 per cent.

Philadelphia, Jefferson county — 14 per cent.
Watervliet — The only serious amount reported in the Albany area, 25 per cent.

Appeals for Unity

Rome, Dec. 13 (AP)—Pope Pius XII appealed to Christians everywhere today for reunion "with Peter and His successor" (the Pope). The appeal for church unity was made in a lengthy letter to the Archbishop of Trent marking the fourth centenary of the inauguration of the Council of Trent, which was called to consider church problems growing out of the Protestant schism.

Alecca Tells How Rescue on River Was Made Tuesday

Continued from Page One

Ponckhockie Man Was in Ice Water for 40 Minutes Before Help Came

Charles Alecca of 167 North street, who narrowly escaped drowning in the icy waters of the Hudson river off Kingston Point, when his rowboat capsized Tuesday night explained today how he and two members of the tanker Port Charlotte, anchored off Kingston Point, had been dumped into the river.

Mr. Alecca said he had gone out to the tanker that night in a rowboat to visit some friends among the members of the crew of the vessel. He said that while he was drinking a cup of coffee in the cabin, the first mate of the tanker, who was taking soundings from the deck, slipped and fell into the river.

Alecca and the captain of the ship got into the rowboat and went to the rescue of the mate. In endeavoring to haul the mate into the boat it capsized and the captain and Alecca were in the water.

Their plight was seen by the watch on the Port Charlotte and a boat was lowered and rowed to their rescue.

Alecca said that he and the two other men were in the water for 40 minutes before they were rescued. He said that on the advertisement
